## **IMPORTANT SAFETY INSTRUCTIONS**

When using an electric wet dry vac, basic precautions should be followed including:

**READ AND UNDERSTAND THIS MANUAL AND ALL INSTRUCTIONS AND LABELS ON THE WET DRY VAC BEFORE OPERATING.**

This vacuum cleaner is for domestic use only; it may be used for vacuuming wet or dry materials and as a blower.

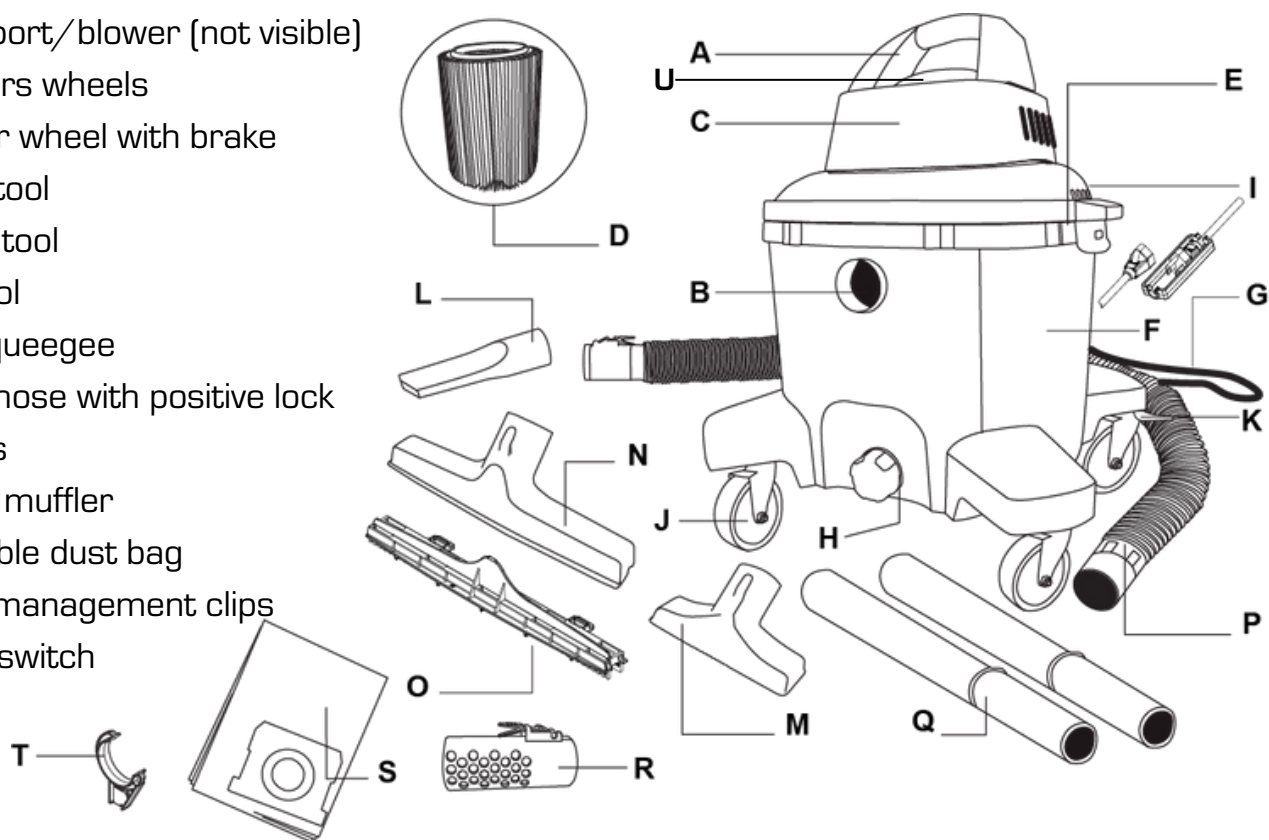

## WARNINGS

### ***To reduce the risk of fire, electric shock, or injury:***

- Use product only as described in the Owner's Manual, use only manufacturer's recommended attachments.
- If wet dry vac is not working as it should, or if it has been dropped, damaged, or submerged into water, return it to place of purchase.
- Do not use with a damaged cord or plug. If the line cord is damaged it must be replaced by the manufacturer.
- Use only extension cords that are rated for outdoor use. Extension cords in poor condition or too small in wire size can pose fire and shock hazards. To reduce the risk of these hazards, be sure the cord is in good condition and that liquid does not contact the connection. Do not use an extension cord with conductors smaller than 1,3mm<sup>2</sup> (16 AWG).
- Do not pull or carry by cord, use cord as a handle, close a door on a cord or pull cord around sharp edges or corners, do not run wet dry vac over cord. Keep away from heated surfaces.
- Connect to a properly grounded outlet only. See grounding instructions in Owner's Manual.
- Turn off before unplugging.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not unplug or use wet dry vac with wet hands.
- To reduce the risk of eye injury, wear safety eyewear. The operation of any wet dry vac or blower can result in foreign objects being blown into the eyes, which can result in severe eye damage.
- Keep hair, loose clothing, jewelry, fingers, and all parts of body away from openings and moving parts.
- Use extra care when using on any uneven or sloped su care.
- Use special care when emptying heavily loaded tanks.
- To reduce the risk of back injury or falls, do not lift a wet dry vac that is heavy with liquid or debris. Partially empty by scooping debris or draining liquid.
- Use extra care when cleaning stairs.
- Never use wet dry vac as a pump.
- Do not use to vacuum flammable or combustible liquids, such as gasoline or flammable vapors, or use in areas where such items may be present.
- Do not use to vacuum soot, cement, plaster or drywall dust. These are very fine particles that may pass through the filter and affect the performance of the motor or be exhausted back into the air.
- Do not use to vacuum toxic or hazardous materials.
- Do not use to vacuum anything that is burning or smoking; such as cigarettes, matches or hot ashes.
- Do not use this wet dry vac to vacuum lead paint debris because this may disperse fine lead particles into the air.
- Do not leave your wet dry vac plugged in. Unplug from outlet when not in use and before servicing.
- Do not put any object into openings. Do not use with any opening blocked. Keep free of dust, lint, hair and anything that may reduce air flow.
- Do not vacuum solids without filter in place. See Operations section of the Owner's Manual for filter instructions.
- Do not use as a blower without filter in place. See Operations section of the Owner's Manual for filter instructions.
- Remove filter when vacuuming liquids. Do not vacuum liquids with filter in place. See Operations section of the Owner's Manual for filter instructions.
- This wet dry vac is not intended for use by persons (including children) with reduced physical, reduced sensory, or reduced mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not allow the wet dry vac to be used as a toy, or to run unattended at any time. If used near children, close supervision is necessary.
- Do not store outdoors. To reduce the risk of electric shock, do not expose to rain or allow liquid to enter motor compartment. Store indoors.

## PRODUCT DESCRIPTION

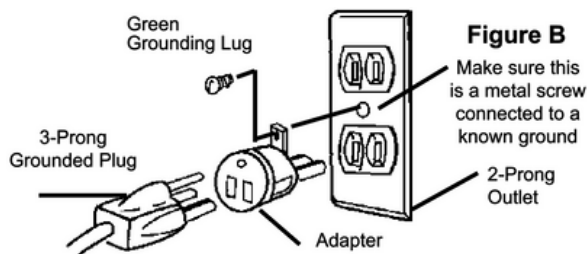

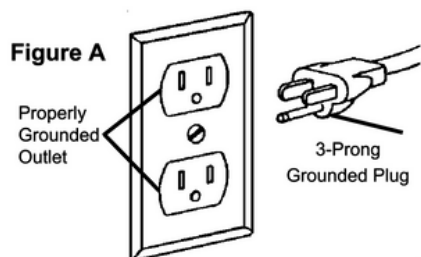

- A. Easy grip handle
- B. Vacuum port
- C. Motor head
- D. Cartridge filter
- E. Accessory storage
- F. Tank
- G. Heavy duty cord
- H. Tank drain port
- I. Exhaust port/blower (not visible)
- J. 3 Casters wheels
- K. 1 Caster wheel with brake
- L. Crevice tool
- M. Pick up tool
- N. Floor tool
- O. Floor Squeegee
- P. Flexible hose with positive lock
- Q. 2 wands
- R. Exhaust muffler
- S. Disposable dust bag
- T. 2 Hose management clips
- U. On/Off switch

**NOTE: Not all accessories are included with all models. Check panel on box for more information.**

## GROUNDING INSTRUCTIONS

The wet dry vac must be grounded. If it should malfunction or break down, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This wet dry vac is equipped with a cord having an equipment-grounding connector and grounding plug. The plug must be inserted into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

## WARNING

Improper connection of the equipment grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the outlet is properly grounded. Do not modify the plug provided with the appliance if it does not fit the outlet, have a proper outlet installed by a qualified electrician.

## VAC ASSEMBLY

### **WARNING**

Always unplug the vac from the outlet current, before performing any maintenance.

1. Line up the motor head with the tank. Pull the side latches out and lower the head. Snap the latches into place. (Fig. 1)
2. Connect the hose into the vacuum port until the lock clicks. (Fig. 2)
3. Place the desired accessory on the other end of the hose. (Fig. 3)
4. Familiarize yourself with the control and features of your wet dry vac.
5. To disconnect the hose, press on the positive lock button and pull the hose out.

**NOTE: Not all accessories are included with all models. Check panel on box for more information.**

Fig. 1

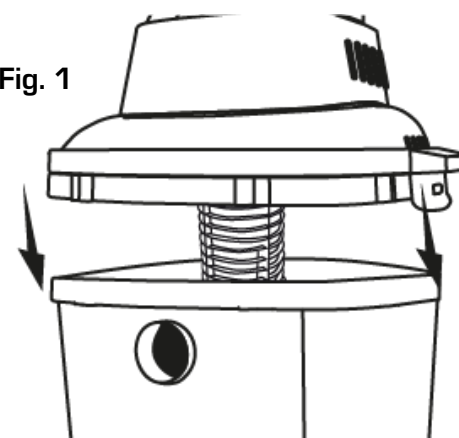

Fig. 2

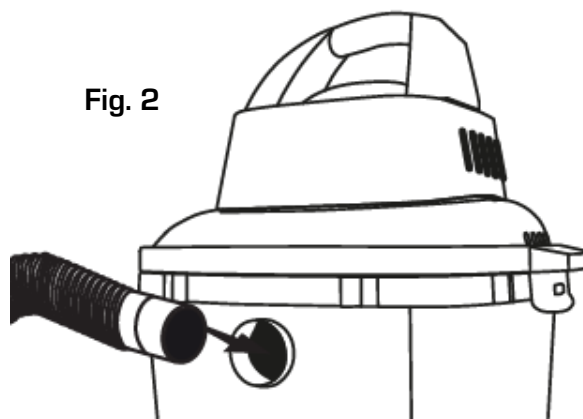

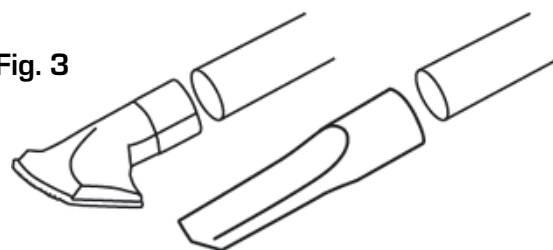

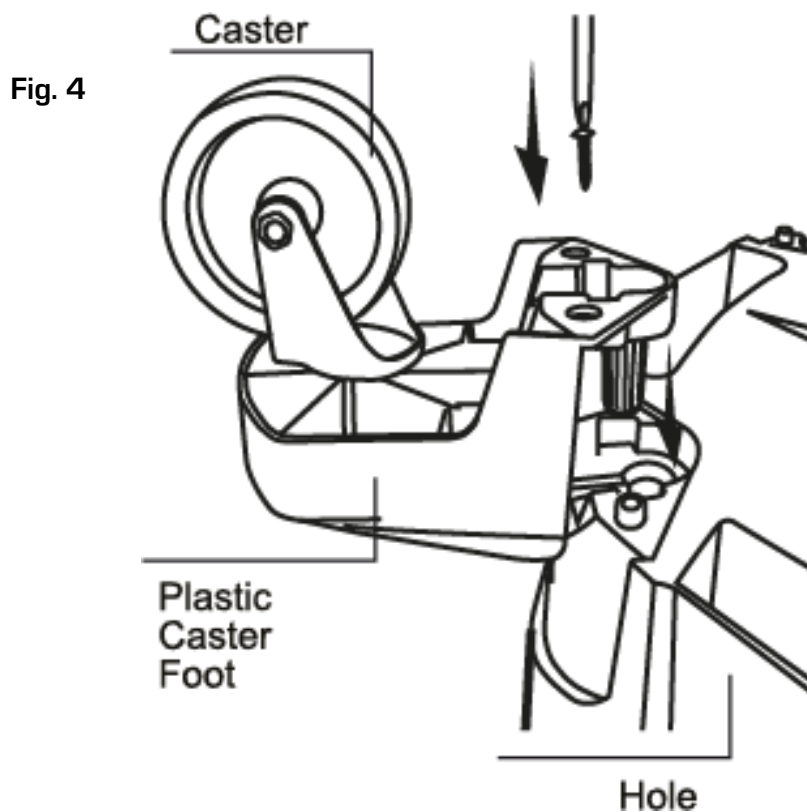

Fig. 3

## CASTERS ASSEMBLY

To assemble the casters on the unit you will need a Phillips head screwdriver:

1. Ensure the wet dry vac is unplugged.
2. Remove the motor head.
3. Turn tank upside down on the floor.
4. Insert plastic caster feet into the bottom of the tank - be sure to position the caster wheel with brake onto the front side of the wet side of the wet dry vac.
5. When inserting the caster feet, push until they are flush with bottom of the tank and use the provided screws to attach each caster foot as shown in (Fig. 4)
6. Turn the tank back right side up.
7. Replace the motor head - pull the side latches out and lower the head. Snap the latches into place.

## ***FILTER ASSEMBLY***

**Cartridge filter must be in place when vacuuming solids.**

**When vacuuming liquids, the cartridge filter must be removed.**

1. Ensure wet dry vac is unplugged.
2. Lift the motor head off of the tank by unclipping the side latches.
3. Slide cartridge filter over cage until the filter stops against the lid.

(Fig. 5)

4. Replace motor head and clip side latches into place.

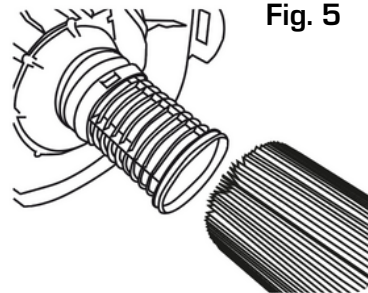

Fig. 5

## ***HOSE MANAGEMENT CLIP ASSEMBLY***

1. Make sure the wet dry vac motor head is correctly assembled to the tank.
2. Place the hose management clip with a slight angle in the space assigned for this accessory. (Fig. 6)
3. Center the hose management clip and push it down.
4. Position the hose in the hose management clips when not in use (Fig. 7)

Fig. 6

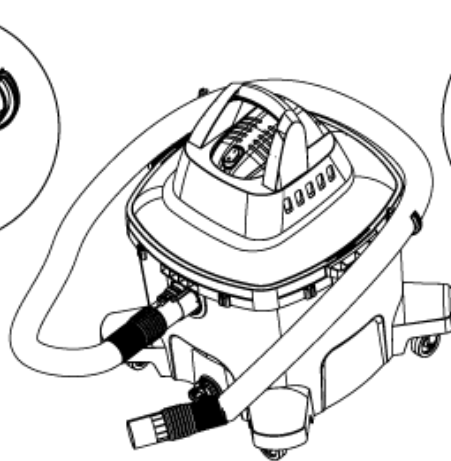

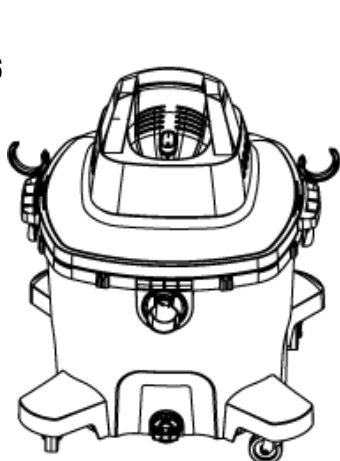

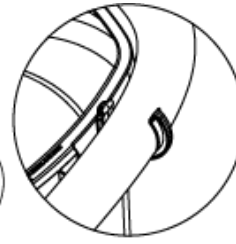

Fig. 7

## OPERATION

**IMPORTANT:** To avoid damage to the unit do not let the motor run with a full tank.

### **TO VACUUM SOLIDS**

**NEVER** vacuum solids **WITHOUT THE FILTER**, this will damage the machine and invalidate the warranty.

#### **To vacuum solids, filter must be in place**

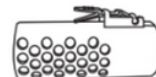

1. Ensure wet dry vac is unplugged.
2. Place the hose into the vacuum port, attach the desired accessory to the hose.
3. Plug wet dry vac into outlet.
4. Turn wet dry vac “ON” and you are ready to use your wet dry vac to vacuum solids.

**OPTIONAL:** To reduce noise when operating, you may use the Exhaust Muffler.

#### **To vacuum solids, filter must be in place**

1. Ensure wet dry vac is unplugged.
2. Locate the Exhaust Port/Blower on your machine.
3. Insert the Exhaust Muffler (Fig. 9) into Exhaust Port/Blower
4. Plug wet dry vac into outlet.
5. Turn wet dry vac “ON” and you are ready to use your wet dry vac to vacuum solids.

**Fig. 9**

**NOTE:** Using with the Exhaust Muffler in place may reduce the airflow of the machine and may reduce suction.

## OPERATION

**IMPORTANT:** To avoid damage to the unit do not let the motor run with a full tank.

### **TO USE WITH DISPOSABLE DUST BAG**

**NEVER** vacuum solids **WITHOUT THE FILTER**, this will damage the machine and invalidate the warranty.

**To use with disposable dust bag, disposable dust bag must be in place**

1. Ensure wet dry vac is unplugged.
2. Lift the motor head off of the tank by unclipping the side latches.
3. Remove cartridge filter from cage. (Fig. 10)
4. Move disposable dust bag over suction inlet inside the tank. The bag has a plastic border that must move over the small plastic nubs, all the way to the end. (Fig. 11)
5. Replace motor head and clip side latches into place. (Fig. 12)
6. Plug wet dry vac into outlet.
7. Turn wet dry vac "ON" and you are ready to use your wet dry vac with the disposable dust bag.
8. When full or finished using the disposable dust bag, turn off the wet dry vac and unplug before removing dust bag from suction inlet inside the tank.
9. Dispose of the dust bag.
10. **IMPORTANT:** Do not use the wet dry vac with a saturated or broken dust bag.

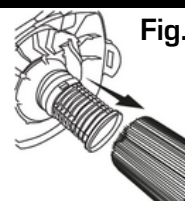

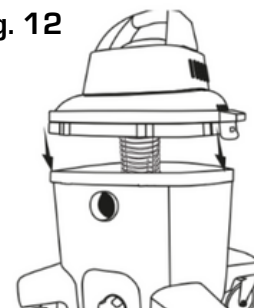

Fig. 10

Fig. 11

Fig. 12

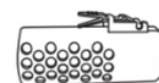

**OPTIONAL:** To reduce noise when operating, you may use the Exhaust Muffler.

**To use with disposable dust bag, disposable dust bag must be in place**

1. Ensure wet dry vac is unplugged.
2. Locate the Exhaust Port/Blower on your machine.
3. Insert the Exhaust Muffler (Fig. 13) into Exhaust Port/Blower

Fig. 13

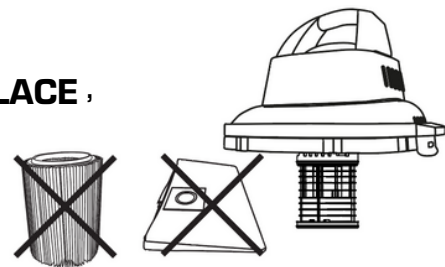

**NOTE:** Using with the Exhaust Muffler in place may reduce the airflow of the machine and may reduce suction.

## OPERATION (CONT.)

### **TO VACUUM LIQUIDS**

**NEVER** vacuum liquids **WITH THE FILTER IN PLACE**, this will damage the filter and invalidate the warranty.

### **To vacuum liquids, filter must be removed**

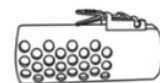

1. Ensure wet dry vac is unplugged.
2. Lift the motor head off of the tank by unclipping the side latches.
3. Remove the cartridge filter from the motor grille, or the dust bag from the suction port.
4. Replace the motor head and clip the side latches into place.
5. Place the hose in the suction port, attach the desired accessory to the hose.
6. Plug wet dry vac into outlet.
7. Turn wet dry vac "ON" and you are ready to use your wet dry vac to vacuum liquids.
8. When vacuuming liquids the unit has a float that will rise to the top and shut off suction when the tank is full.
9. When ready to empty liquids from the tank, turn off the wet dry vac and unplug it from outlet.
10. Remove liquids using the tank drain port or dump out liquids.
11. All liquids must be removed prior to vacuuming solids or using as an air blower.

**OPTIONAL: To reduce noise when operating, you may use the Exhaust Muffler.**

### **To vacuum liquids, filter must be removed**

1. Ensure wet dry vac is unplugged.
2. Locate the Exhaust Port/Blower on your machine.
3. Insert the Exhaust Muffler (Fig. 14) into Exhaust Port/Blower
4. Plug wet dry vac into outlet.
5. Turn wet dry vac "ON" and you are ready to use your wet dry vac to vacuum with the Exhaust Muffler in place.

**Fig. 14**

**NOTE: Use with the Exhaust Muffler in place is not recommended due to the reduction in water lift.**

## OPERATION (CONT.)

### **TO USE AS AN AIR BLOWER**

**NEVER** use as an air blower **WITHOUT THE FILTER**, this will damage the machine and invalidate the warranty.

This DieHard wet dry vac also functions as an air blower. It has the capability to blow sawdust and other debris. It is excellent to use to blow dust and debris out of garages or off patios and driveways.

### **WARNING**

To avoid injury to bystanders, keep them clear of blowing debris. The operation of any utility vac can result in foreign objects being blown into the eyes, which can result in severe eye damage. Always wear safety goggles.

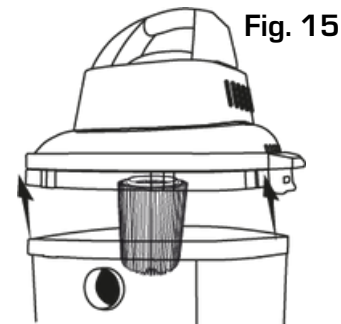

Keep hair, loose clothing, jewelry, fingers, and all parts of body away from vacuum port when operating as an air blower.

### **To use as an air blower, filter must be in place**

1. Ensure wet dry vac is unplugged.
2. Locate the blowing port of your wet dry vac.
3. Remove exhaust muffler (if present) and insert flexible end of the hose into the blowing port.
4. Plug wet dry vac into outlet.
5. Turn wet dry vac "ON" and you are ready to use your wet dry vac as a blower.

## CLEANING THE TANK

1. Unplug power cord.
2. Remove the hose.
3. Unlock the side latches and remove the motor head. (Fig. 15)
4. Place motor head cover upside down on a clean surface.
5. Dump tank contents into a waste container. (Fig. 16)
6. Wash drum thoroughly.
7. Wipe out with dry cloth.
8. Replace motor head and clip side latches into place.

### **WARNING**

To avoid back injury or falls, do not lift a vac heavy with liquid or debris. Scoop or drain enough contents out to make the vac light enough to lift comfortably.

Fig. 16

### **GENERAL MAINTENANCE:**

To keep your wet dry vac looking its best, clean the outside with a cloth dampened with water and mild soap.

### **EXHAUST MUFFLER MAINTENANCE:**

The optional exhaust muffler should be free of debris and dirt before using.

If necessary, you may rinse the exhaust muffler with water to clean. Exhaust muffler must be completely dry before use.

## ***FILTER MAINTENANCE***

### **WARNING:**

To avoid injury from accidental starting, unplug power cord before changing or cleaning filter.

1. For best cleaning results, clean the cartridge filter outdoors in an open area.
2. Unplug power cord.
3. Unlock the side latches and remove the motor head.
4. Place motor head cover upside down on a clean surface.
5. Remove the cartridge filter from the cage.
6. Remove the dry debris from the cartridge filter by gently tapping the filter against the inside wall of the tank.
7. **IMPORTANT:** After cleaning the cartridge filter, check for holes. If any holes are found, replace the cartridge filter immediately. Even small holes will permit dust to come out of the vac.
8. Slide the cartridge filter over cage until the filter stops against the lid.
9. Replace motor head and clip side latches into place.

**IMPORTANT: Change cartridge filter frequently. Your cartridge filter should be changed often to maintain peak wet dry vac performance.**

This filter is made of high quality materials designed to stop very small particles of dust. Handle the filter carefully when removing to clean or installing it. Creases in the filter pleats may occur from installation but creases will not affect the performance of the filter.

**Always use the wet dry vac with the filter when vacuuming dry debris and dust.**  
**When vacuuming liquids, remove the filter.**

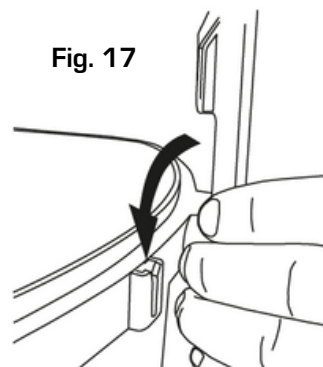

## ***STORAGE***

Before storing your wet dry vac, the dust tank should be emptied and cleaned.

Accessories should be stored on the tool caddy. (Fig. 17)

The wet dry vac should be stored indoors.

Fig. 17

## TROUBLE SHOOTING

PROBLEM	POSSIBLE CAUSE	POSSIBLE SOLUTION
Vac does not start	Not firmly plugged in.	Plug in firmly.
Low suction	Tank is full	Empty tank.
	Filter is dirty.	Shake dust out of filter. See "Filter Maintenance" section.  Change cartridge filter.
	Motor head not installed correctly.	Be sure that the motor head sits properly on the tank
	Exhaust Muffler is in place.	Remove the Exhaust Muffler from Exhaust Port. <b>NOTE:</b> Using with the Exhaust Muffler in place may reduce the airflow of the machine and may reduce suction.

## TROUBLE SHOOTING, CON'T

PROBLEM	POSSIBLE CAUSE	POSSIBLE SOLUTION
Low suction, con't	Obstruction in hose.	<p>Connect the hose to the blowing port and turn on to blow obstruction out of hose until hose is clear.</p> <p><b>WARNING:</b> To avoid injury to bystanders, keep them clear of blowing debris. The operation of any utility vac can result in foreign objects being blown into the eyes, which can result in severe eye damage. Always wear safety goggles.</p> <p>Keep hair, loose clothing, jewelry, fingers, and all parts of body away from vacuum port when operating as an air blower.</p>

## LIMITED WARRANTY

### LIMITED WARRANTY

Equity Sales and Marketing, Inc., ("ESM") warrants this product against defects in workmanship or material. This is the lifetime Limited Warranty against manufacturing defects. Warranty coverage ends when the product becomes unusable for reasons other than defects in workmanship or material. This warranty is valid only in the United States.

**THIS WARRANTY SHALL NOT APPLY** to any products or parts thereof which have been damaged by acts of nature, accidents, negligence, commercial use, tampering, misuse or abuse, or which have been altered or modified (including removal of the serial number) or repaired by an unauthorized person or service center. Misuse includes, among other things, connection to improper voltage supply. Further, this warranty does not cover cosmetic damage to the product.

**THIS WARRANTY SHALL NOT APPLY** to brushes, wheels, casters, hoses, or accessories since their life depends upon the amount of use.

**THIS WARRANTY SHALL NOT APPLY** to a product used to pick up dust and dry materials without a filter in place.

**THIS WARRANTY SHALL NOT APPLY** to a product used to pick up liquids with a filter in place.

**THIS WARRANTY SHALL NOT APPLY** to a product used to blow sawdust and other debris without a filter in place.

**THIS WARRANTY SHALL NOT APPLY** to a product used in a manner contrary to any of the sections of the Owner's Manual (including the Warnings in the Owner's Manual and on reverse side of this page).

**FOR REPAIR OR REPLACEMENT** the inoperative machine must be delivered with shipping and delivery charges prepaid together with the receipt, bill of sale, or receipted invoice which is evidence of the purchase date to place of purchase. ESM will either repair or replace, at its selection, all defective machines during the warranty period.

This limited warranty is the sole and exclusive warranty for the ESM product. No employee, agent, dealer, or other person is authorized to alter this warranty or make other warranty on behalf of ESM.

---

**REPAIR OR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY TO THE CONSUMER. ESM SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES FOR BREACH OF ANY EXPRESS OR IMPLIED WARRANTY ON THIS PRODUCT, EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. ESM'S LIABILITY UNDER NO CIRCUMSTANCES WILL EXCEED THE CONTRACT PRICE FOR THE PRODUCT OR PARTS FOR WHICH LIABILITY IS CLAIMED.**

---

The foregoing obligations are in lieu of all other obligations and liabilities including negligence and state ESM's entire exclusive liability and the purchaser's exclusive remedy. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions do not apply to you.
